

Specialty Add/Delete Request

This form is required for students who wish to either add, or delete a specialty from their academic plan. To initiate the request, the student should first consult with their Academic Advisor regarding the change and potential implications to their academic plan. The student will then need to complete the form and obtain the required signature from his/her Academic Advisor. The form should then be forwarded to the MSN Program Office:

MSN Program Office DUMC 3322 Durham, NC 27710 Fax: 919-660-9243 Email: <u>SON-MSN@dm.duke.edu</u>

The MSN Program Office will schedule a brief interview for the student and the Specialty Lead Faculty. The Specialty Lead Faculty will then need to indicate if they approve the request, or not. The form should then be forwarded back to the MSN Program Office for processing. Forms submitted without the <u>required</u> signatures from the Academic Advisor, Specialty Lead Faculty and Program Director will not be processed.

Specialty Add/Delete Request
