"Integrating Research into a Busy Clinical Practice"

January 25, noon-1 pm • Hanes House, Room 131

presented by
Mack Ruffin IV, MD, MPH

Dr. Ruffin is a practicing family physician and professor of and associate chair for research programs in the Department of Family Medicine at the University of Michigan Medical School.

Dr. Ruffin’s main research focus is cancer prevention and early detection.

Dr. Ruffin received an undergraduate degree from Duke University in biomedical engineering.

Dr. Ruffin will discuss how clinicians can integrate research into a busy practice. His talk will focus on:
• Research and QI
• Making it fun and part of the culture
• Training the current and next generation
• Devoting core time and resources
• Involving the entire patient team
