

Nurse Anesthesia - Doctor of Nursing Practice

Preparing nurse anesthesia scholars with skills in anesthetic administration in a wide array of clinical settings to patients across the lifespan.

Duke University
School of Nursing

The destination for outstanding talent

Program Highlights:

- Variety of clinical rotations with a wide range of experiences including high acuity settings, teaching and military institutions, and CRNA practice models.
- Multiple state-of-the-art simulation opportunities available to develop in the advanced practice role and foster teamwork and leadership skills in a safe, supportive and interactive student-centered environment.
- Extensive student mentoring program.
- Learn from interdisciplinary faculty with diverse backgrounds, who are actively involved as clinicians, researchers and educators, allowing for creative, innovative and effective teaching strategies and student clinical opportunities.

At least one year of acute care nursing experience and BSN required.

This 36-month full time program is on-campus.
