

INTERESTED IN FACILITATING A TEACHING CONVERSATION???

The Teaching Conversations sponsored by the IEE are designed to provide forums for DUSON faculty and others to engage in ongoing dialogue about educational excellence, teaching and curriculum innovations, effective integration of educational technology, evidence-based teaching practices, and the scholarship of teaching. Do you have an education-focused topic, issue or innovation you'd like to share with colleagues? If so, please complete all sections of this form and return it to Tony Snipes at tony.snipes@duke.edu. He will forward it to the IEE Advisory Board member who coordinates/schedules Teaching Conversations, and that individual will follow up with you to discuss details.

Thanks for your willingness to share your teaching experiences and expertise ... and for supporting the IEE's Teaching Conversation series.
