

**DUSON
TRACK I APT Criteria**

The role of the faculty member in DUSON's Track I , a tenure earning track, is to contribute to the school's mission by advancing the science of nursing through research as an independent investigator, as evidenced by a program of research, scholarly publications, and extramural research funding. Advancement in Track I is determined by progressive significance and impact of the scholar's research, which receives national or international recognition. All faculty members are expected to demonstrate excellence in teaching and progressive contributions in service. Examples of evidence that might be used to support the significance and impact of the faculty member's work are listed below. These examples are illustrative only, a subset of these examples is necessary to document significance and impact, and other examples may be used.

DUSON	ASSISTANT PROFESSOR	ASSOCIATE PROFESSOR WITHOUT TENURE	ASSOCIATE PROFESSOR WITH TENURE	PROFESSOR WITH TENURE
	Candidates for the rank of Assistant Professor in Track I have an earned doctoral degree and are beginning investigators who have demonstrated creativity and promise in their early program of research and have expertise in a substantive or methodological area.	Candidates for the rank of Associate Professor without Tenure in Track I have demonstrated excellence in a program of research, and have received regional recognition for the significance and impact of their work.	Candidates for the rank of Associate Professor with Tenure in Track I have demonstrated excellence in a program of research and have received national recognition for the significance and impact of their work.	Candidates for the rank of Professor with Tenure in Track I are senior investigators who have a sustained record of excellence in a program of research, and have received national/international recognition for the significance and impact of their work.
Research	These faculty demonstrate: ● potential excellence and significance and impact in research.	In addition to meeting the criteria for the rank of Assistant Professor, these faculty demonstrate: ● excellence in research, which is recognized regionally.	In addition to meeting the criteria for the rank of Associate Professor without Tenure, these faculty demonstrate: ● excellence in research, which is recognized nationally ● and leadership in research	In addition to meeting the criteria for the rank of Associate Professor with Tenure, these faculty demonstrate: ● a sustained record of excellence in research which is recognized nationally/internationally ● and established leadership in research
	Examples: <ul style="list-style-type: none"> • Focused area of independent research that has the promise for obtaining future extra-mural research funding • Conducts own pilot research project(s) • Has received intramural or extramural small grant funding • Authors or co-authors published scholarly work from dissertation, post-doctoral research, or related research collaborations in peer-reviewed journals • Authors or co-authors article(s) in non-refereed journals or book chapter(s) in area of research • Presents research papers/posters at local, state and/or regional conferences 	Examples: <ul style="list-style-type: none"> • Serves or has served as principal investigator on at least one extramurally funded research project, equivalent to a career development award or R03 • Serves or has served as co-investigator, participating investigator, or consultant on research projects of other faculty • Regularly publishes research and data-based articles in focused field of research in peer-reviewed journals, including top-tiered nursing research, nursing specialty, and interdisciplinary journals • Authors or coauthors research and data-based articles in non-refereed journals or book chapter(s) in area of research, in top-tiered nursing research, nursing specialty, and interdisciplinary journals • Receives local/regional award(s) for outstanding research, publication(s), or invited lectures 	Examples: <ul style="list-style-type: none"> • Serves or has served as principal investigator on one or more significant (R01 equivalent) extramurally funded research project • Strong record of collaboration in research with colleagues • Strong record of publication of research and data-based articles in focused field of research in peer-reviewed journals, including top-tiered nursing research, nursing specialty, and interdisciplinary journals • Authors or co-authors articles in widely disseminated non-refereed journals or book chapters • Editor or co-editor of book(s) in area of research or as editor of special topic in nursing or interdisciplinary journal • Invited to present research at national conferences • Impact of research publications is demonstrated by citations, published responses/evaluations/reviews • Research has stimulated work of other researchers or provided new applications in field • Research has impacted regional/national health practice, education, or policy 	Examples: <ul style="list-style-type: none"> • Has sustained record of success in extramurally funded research • Leads and mentors extramurally funded research team • Sustained record of publication of research and data-based articles in focused field of research in peer-reviewed journals, including top-tiered nursing research, nursing specialty, and interdisciplinary journals • Principal author of scholarly works of exceptional quality that are frequently cited and recognized as major contributions in the field • Authors or edits book(s) and/or reports in area of research • Invited to present keynote or featured presentations at national/international conferences • Research impacts national/international health practice, education, or policy • Writes Center grants to develop student and faculty research • Elected as Fellow of the American Academy of Nursing
